The Arts District runs very dim over here. We can use your help in improving nighttime visibility. We need the City to install more lights. That being said, we have 100% of our lights operational.

Thank You,

Hi there. I'm getting several complaints and wanted to bring some significant attention to what I think is a pretty serious lighting concern in our DTLA... Besides South Park (needing new lights) can you please advise what percentage of your BIDs are down street lights because the City needs to replace bulbs, fix wires, etc.

I may ask you for follow up info later but best estimate... XX% of your district lighting is out?

Thank you.
